Naginata Togi and Saibi Togi nibs.

In December 2015 we decided to stop taking orders for our special nibs except Naginata and Saibi nibs due to the large order list beyond our production capacity. We have been receiving even more orders which have further inflated our back orders. The back order delivery times are now even worse and we must take the next decision to also totally stop taking orders for product with the Naginata Togi and Saibi Togi nibs. We are doing our best to make the nibs to reduce the number of back orders. Hopefully we will resume taking orders for Naginata and Saibi Togi nibs in Summer 2018.

We apologise for any inconvenience caused by our decision and appreciate your understanding.

Date of implementation: 1st February 2017
